

	Cloud Storage Costs	Backup to cloud	Backup to computer
<b>GOOGLE PHOTOS</b>	15 gig free 100 gig 2/mo 1 T 10/mo Same storage and costs apply for all Google products.	<b>high quality:</b> compressed over 16 MP Unlim storage/no cost. <b>original quality:</b> No compression but it does count against paid storage. Delete on phone, they remain on cloud Delete on cloud, they are deleted on cloud and phone. Slow: based on your wifi speed. Organization: dates, places, people, things Can create custom albums	<b>Drag and drop</b> from DCIM folder on phone to "my pictures" on computer. <b>Import</b> from camera with Picasa's import function. Very fast with USB cable connection.
<b>GOOGLE DRIVE</b>	Same as Google Photos	Can organize into custom folders. Meshes well with other Google products like DOCS or Slides. Great for backing up finished scan albums. Poor for sharing- there is no slide show function.	
<b>APPLE PHOTOS</b>	5 gig free 50 gig 1/mo 200 gig 3/mo 1T 10/mo	<b>Camera roll:</b> Photos on device only. <b>Photo stream:</b> On cloud for 30 days-free <b>iCloud Photo Library:</b> Backup all photos from phone to icloud at original quality. Counts against paid storage. Leaves compressed photos on phone if "optimize storage" is turned on. Slow: based on your wifi speed. Organization: dates, places Can create custom albums	<b>itunes backup:</b> cannot see or work with individual photos on computer. <b>Import to Mac:</b> with Image Capture, Photos App, iPhoto, or Preview. <b>Import to PC:</b> Use autoplay popup to import or view files. Try drag and drop from view files?? Very fast with USB cable connection.
<b>DROPBOX</b>	2 gig free 1T 10/mo	Can organize into custom folders. folders on PC and cloud sync	
<b>MICRO SOFT ONE DRV</b>	1T free w Office365 Pers subscription \$70/yr storage only 50gig 2/mo	Can organize into custom folders. folders on PC and cloud sync slide show function in photo sharing
