Paul Turelli

5 wks THURS 9/14-10/12, 11:30 am-1 pm

\$45, DVD Viewing, discussion, reading

We will read Shakespeare's text and simultaneously watch Kenneth Branagh's stunning 1996 film. Analytical breaks will be taken to examine scenes, plot lines, character developments, and critiques of both the play and the film itself. We will look primarily at the Prince's motives and Shakespeare's underlying themes.

REQUIRED READING: Borrow or purchase this play.

Paul Turelli, a former Littleton Public Schools Administrator and teacher, has most recently taught Academy classes about Bob Dylan, The Beatles and songwriters of the '60s. Paul is a member of the Academy's Board.

HAVING THE LAST WORD:**A STUDY OF OBITUARIES -NEW**

Sally Stich

4 wks WED 9/13-10/4, 9:30-11 am

\$45, Lecture, in-class reading, discussion

Morbid or insightful? Sad or celebratory? Study obituaries, from a historical perspective--the first one published-- to modern day obits, using the *New York Times* as the gold standard of obit writing. Why study obits now? Because for Baby Boomers, crafting their own last words has become a nationwide trend. We'll study how we got to this point, while also learning about what makes a life story a great read. Reveal the joy and beauty of one's last story, as well as the humor and honesty--or conversely, the clichés and platitudes.

Sally Stich has been a freelance writer for 36 years. Her work has appeared in the *Denver Post* and the magazines that grace your coffee table. She also taught on the writing faculty at CU-Denver and in the Master of Humanities program at DU's University College.

\$95 DVD Viewing, Discussion

Now in his 80's, Clint Eastwood has enjoyed success in the three most challenging and demanding areas of filmmaking—as an actor, director and producer. Come watch and discuss his classic films: *Play Misty for Me*, *High Plains Drifter*, *The Outlaw Josey Wales*, *Dirty Harry*, *Bird*, *Gran Torino*, *Mystic River*, *Million Dollar Baby*, *American Sniper*, and *Unforgiven*. There will be a break in the middle of class for you to eat lunch. Feel free to bring your own.

Don Baer has been a member of the Directors Guild of America for 40 years, where his television and film experience included major studios: Universal, MGM, 20th Century Fox, Paramount, Warner Bros, and Columbia.

ART IN POLITICS, IDEOLOGY**and SOCIAL COMMENTARY –NEW**

Georgi Contiguglia

6 wks THURS 10/12-11/16, 9:30-11 am

\$65 Lecture, Q&A

Since ancient times, art has played roles that go beyond aesthetics, decoration and technology. Art has provided meaning by reflecting history, politics, ideology, hopes and fears of epochs and generations through time. Get an overview of the purposeful uses and roles of art through the ages from ancient to modern times.

Georgi Contiguglia has a graduate degree in Art History and taught the subject in NYC and Ft. Collins. She was curator of Decorative and Fine Arts and later CEO at History Colorado. She is Vice-President and Treasurer of the Academy.

AMERICAN MODERN DANCE-**ISADORA TO MARTHA TO MERCE –NEW**

Gloria Kubel

7 wks TUES 9/12-10/24, 11:30 am-1 pm

\$75 Video, discussion

Modern dance in America developed to make statements in movement that were relevant to modern times and had a unique American energy. Beginning in

the early 20th century, modern dance is as varied as the dancers/ choreographers who have given form to their artistic vision. We will view tapes of dance performances and discuss what we observe--performers such as Isadora Duncan, Martha Graham, Jose Limon, Alvin Ailey, Alwin Nikolais, Merce Cunningham and Paul Taylor. In our discussions we learn how a dance can relate to emotional expression, social commentary, and abstract form.

Gloria Kubel studied dance in New York City, highlighted by studying with Martha Graham, Hanya Holm and Erick Hawkins and performed ballet and modern dance with Martha Graham and more. She taught in Denver for over 20 years and directed a small company. Gloria created a movement-discussion-support group for women after breast cancer and continues to teach dance, exercise, tai chi and meditation classes.

\$55, Lecture, Q&A

A highly demanded second part to Voices of Broadway, which dealt with how voices on Broadway changed over the years and the singers, composers, and musicals that influenced those changes, More Voices of Broadway will introduce you to new performers, famous and forgotten, and give you more stories and information about some of the people and productions from the first series of classes. And, of course, LOTS of music to hear and videos to see. This is a repeat of a popular Academy course. No prerequisite for this course.

Don Culp was in sales and sales management and also managed The Magic Castle in Hollywood. He has studied singers and the art of singing since 1970.

THEODORE GOUVY'S PLACE IN MUSIC HISTORY

Robin McNeil

8 wks THURS 9/14-11/9, (Skip 9/21) 9:30-11 am

\$80 Lecture, Q&A

Immerse yourself in the life and music of little-known French composer Théodore Gouvy (1819-1898). This composer was greatly respected during his lifetime, but obscurity followed his death until the late 20th century when the Institut Théodore Gouvy in Hombourg-Haut, Lorraine, was founded to champion his achievement. By exploring his relationship to such well-known contemporaries as Berlioz, Liszt, and Brahms, we'll begin to discover and appreciate his place in the history of music.

Concert pianist **Robin McNeil** taught at the Universities of Illinois and South Dakota, in addition to serving as executive director of the Denver Philharmonic Orchestra.

MAKING AND SHARING SOUND END-OF-LIFE CHOICES

George Ho

8 wks WED 9/13-11/1, 11:30 am-1 pm

\$85 Discussion, writing

We will all die one day, but we need not make a graceless exit. Instead, we can prepare for death in a personalized and unique way. By developing our own sense of what end-of-life can and should look like, we can share decisions with our family and friends. We'll consider the options we have, the choices we face and the wishes we want to pass on. This is not a "how-to" course or a substitute for medical or legal advice. It's an opportunity to appreciate the nuances of the dying process, to consider the difficulties surrounding end-of-life issues, and to develop new perspectives by sharing our concerns in a safe setting. Repeat of a popular class. Class maximum of 24 participants.

Retired from an active career in teaching and medical practice, **George Ho, Jr.** focuses his special expertise on the areas of internal medicine, arthritis treatment and palliative end-of-life care.

FUTURE METRO DENVER ON THE CUTTING EDGE –NEW

Chuck Shannon, various speakers

5 wks THURS 9/14-10/12, 1:15-3 pm (Note start time)

\$65 Lecture, Q&A

In recent years, "millennials" have been the defining demographic factor for metro Denver growth. Well, "seniors" have become the defining demographic for the future. How is population growth, including the impact of "seniors," going to affect metro living? Learn about metropolitan cooperation, characterized by the Brookings Institution as among the best examples in the country. What will transportation look like? How about housing affordability and choice? How will they affect your lifestyle? Digital technology will be addressed as it is redefining urban planning and service delivery. Denver

is rumored to be the preferred site of Google to demonstrate the "City of the Future."

Chuck Shannon has been a division director for DRCOG, vice president for Mile High United Way, senior fellow at United Way of America, and a fellow at the Kennedy School at Harvard University. The Academy is partnering with the **Denver Regional Council of Governments** (DRCOG), which through Brad Calvert, Regional Planning and Development Director, is coordinating the identification of key organizations and expert speakers to address critical planning needs of the metro Denver area.

INTERNATIONAL CRIMINAL COURTS:

JUSTICE AND CONTROVERSY-NEW

Steve Bernard, Sheila Porter Phd.

\$65 Lecture, discussion

From the days of its origins with Nuremberg, international criminal courts have been mired in controversy over their scope, cost and relevance. Today the system of International Criminal Justice remains contentious. The African Union threatens to withdraw from being a participant and the US has never agreed to be a signatory. You will learn a great deal of history that is not generally known and will look ahead as we discuss the future of International Justice.

Steve Bernard, appellate judge, and **Sheila Porter**, forensic psychologist, have partnered again to delve into the world of International Criminal Courts. Both Steve and Sheila have long-standing interest in what leads to resolution after human rights abuses reach public awareness and prick the human conscience. Sheila is on the Academy Board.

PHILOSOPHY/ RELIGION

ISLAM 101: A WOMAN'S PERSPECTIVE-NEW

Gulsum Katmer

10 wks THURS 9/14-11/16 1:30-3 pm

\$90, Lecture, Q&A

Islam, the religion of about 1.6 billion Muslims, is perhaps the most misunderstood religion in the West. This course will attempt to provide an overview of Islam, its history, major teachings, rituals, attitudes, sects within the religion, and its relations with other cultures and faiths, among other topics, in order to provide a well-rounded introduction to one of the most influential ways of life on Earth.

Gulsum Katmer was born and raised in the neighborhoods of Cappadocia, Turkey. In 2007, she moved to the US where she received her BS in Biology from UCLA and her Master's in Economy from Penn State. Last year, she became the Executive Director of Multicultural Mosaic Foundation. She and her family have been living in Colorado since 2013.

AMERICAN RELIGIOUS HISTORY: 1492 TO 1865

Ted Stainman

6 wks THURS 10/12-11/16, 9:30 -11 am

\$65 Lecture, Q&A

True, America was founded by people seeking religious freedom, but that's a simple version of history. Religious ideas and religious people were critical to the development of America: how we became a nation and why we face the issues we face today. Learn about the beginning of evangelical religion, how the Baptists and Methodists won, how the Puritans lost Harvard, how the Mormons started west, and how the Branch Davidians traced their origins to a New England messianic movement.

Ted Stainman earned a Master's in Hebrew Letters from the Hebrew Union College, NYC, and attended the Hebrew University in Jerusalem, Israel, 1964-65, as a special overseas student. He taught American Religion at Wesley College after retiring from 23 years as an Air Force chaplain.

THOMAS MERTON & DOROTHY DAY: SAINTHOOD OR DISSENTERS? -NEW

Paul Turelli

4 wks THURS 9/14-10/5, 1:30-3 pm

\$40, :Lecture, discussion, Q&A

Thomas Merton and Dorothy Day are arguably the most important American Catholics (Christians) of the 20th century. Their writings and controversial lifestyles challenged the traditional and fundamental doctrines and beliefs of the Church--and the larger Christian world. Although contemporaries, their separate and unique lives addressed a greater question: "How to live a Christian Life in the Modern World?" Through a seminar and discussion format, an intense and sometimes very personal exploration of these two spiritual giants will be explored. Weekly readings for each class period will be provided through email.

Paul Turelli, a former Littleton Public Schools Administrator and teacher, has most recently taught Academy classes about Bob Dylan, The Beatles and Songwriters of the '60s. Paul is a member of the Academy's Board.

THE BOOK OF JOB: GOOD GOD, EVIL ACTIONS

Ralph Stern

8 wks TUES 9/12-10/31, 1:30-3 PM

\$80 Lecture, discussion

The Book of the Job has inspired theologians and philosophers for the past 1500 years. Professor George Moore and Charles Kent of Harvard University describe Job as the greatest work of Hebrew Literature and one of the greatest works of world literature, ranking with Homer's *Odyssey*, Virgil's *Aeneid*, Dante's *Divine Comedy* and Milton's *Paradise Lost*. It's a very short book, perfect for study, analysis and trying to decipher its enigmatic message. As a direct by-product, we will wrestle with theodicy and the problems that have plagued believers in a supreme being from biblical times until today.

Ralph Stern has spent the past 45 years reading about theology, theodicy and comparative religion. In 1986, he entered the Jewish Theological Seminary and received a Masters in Jewish Philosophy.

OUR BIOSPHERE: PAST & FUTURE

Jonathan Ormes

4 wks TUES 9:30-11 am, 10/24-11/14

\$50 Lecture, Q&A

The biosphere is the thin shell around the surface of the planet that contains and sustains life on Earth. We will consider the history of this fragile shell including the basic outline of the evolution of life, the formation of fossil fuels, and the recent past with its cycles of ice ages. We will connect with the past to see what it can tell us about the future. We will consider questions such as, “How will the energy revolution look going forward?,” “What can we expect from the melting of the Greenland and Antarctic ice fields and caps?,” and the biggie, “Will it continue to sustain life as we know it?”

Jonathan Ormes is a Physics Research Professor at DU. He was the Director of Space Sciences at NASA’s Goddard Space Flight Center. His research career involved studies of the origin and characteristics of the relativistic particles that pervade our galaxy.

DARK MATTER:

PHYSICS' OLDEST UNSOLVED PROBLEM -NEW

John Anderson

5 wks TUES 9/26-10/24, 1:30-3 pm

\$55 Expert Videos, Lecture, Q&A

Scientists know that galaxies and clusters of galaxies are held together by what they call “dark matter.” This mysterious stuff can’t be seen, yet it comprises five times as much of the universe as all the ordinary matter that makes up our world, our bodies and the sun. But what is it really? We will start by viewing the feature-length movie *Particle Fever*, which shows the behind-the-scenes story of the Large Hadron Collider (LHC) in Switzerland where the Higg’s particle (Nobel Prize 2013) was discovered. The LHC is currently searching for clues as to what dark matter is. We will discuss various theories about this priority physics and cosmology problem, along with some novel technical jargon.

John Anderson worked in the computer industry for 30 years. Retirement allowed him to resume an undergraduate interest in physics and the history of science. He has a degree in physics from Yale. After many years in New York/New Jersey, including seven years on Wall Street, he came to Colorado.

WATER IS LIFE II- SELECTED KEY ISSUES

Tim Steele

5 wks WED 10/18-11/15, 9:30-11 am

\$50 Lecture, discussion

Water, water everywhere, but what do we need to know? This class encompasses in-depth facets of water covered in last year’s course. Selected topics, plus some new ones, include: The Amazon River Basin – water and ecology impacted by development; Watershed Plans – the institutional keystone of water management; China (PRC) – sacrificing environmental controls for economic progress ;The EU’s Water Framework Directive – contrasting water policy to the U.S., and ; Energy-Mining: Emerging Water-Quality Contaminants – types and impacts. An optional trip for those who did not attend last year’s course is proposed to the Argo Mine Treatment Facility and Xcel’s historical hydropower museum in Georgetown, with an overview of various issues in the upper Clear Creek watershed. No prerequisite needed to attend this class.

Tim Steele has worked in hydrology and regional assessments of water resources for 51 years. Recently, he has conducted university-related applied research and lectures on global water-resources issues, mine-impacted case studies, and Integrated Water Resources Management.

UNDERSTANDING THE MIDDLE EAST: 1880-2017 -NEW

Herzl Melmed MD, Robert Hazan Phd

5 wks THURS 10/5-11/2, 11:30 am-1 pm

\$65 Lecture, Q&A

This class will explore the Middle East by looking at:
1) The Ottoman Empire towards the end of the 19th century
2) The Rise of Political Zionism.
3) The Causes & Consequences of World War I.
4) A brief history of

Palestine
5) The Causes & Consequences of World War II.
6) Arab-Israeli Wars & Arab-Israeli Peace Efforts: 1948-2000
7) 21st Century: The Future of the Middle East.

A native of South Africa, **Herzl Melmed** grew up in Rhodesia (Zimbabwe), where he was a student leader and activist who fought Apartheid and later lived in Israel during the Six-Day and the Yom Kippur Wars. Since immigrating to Colorado in 1976, he has been active in the local community and chairs ActionIsrael, a grassroots group of Christian and Jewish supporters of Israel. Together with Prof. Hazan, Mr. Melmed chaired a Middle East study group for 27 years and a Jewish-Muslim dialogue in Denver for two years.

Dr. **Robert Hazan** is Chair and Professor of Political Science at the Metropolitan State College of Denver. He is a founding member of the Middle East Study Group of the Anti-Defamation League-B'nai Brith. Dr. Hazan grew up in Istanbul, Turkey, and was educated in France and the United States. U.S. HIGHWAY 50: 'MAIN STREET OF AMERICA'-NEW

David Marsh, Ph.D.

5 wks WED 10/18-11/15 , 11:30 am-1 pm

\$55 Lecture, discussion

Time Magazine calls U.S. Highway 50 the “main street of America”--the highway extends from Maryland’s eastern shore to Sacramento and passes through Washington, D.C., Cincinnati, St. Louis, Kansas City and the heartland of America. What were the noble ideas that shaped our nation and how have these ideas played out as we tour across the country? We’re going to use Highway 50 to explore America from its founding, early development, the Civil War, and westward expansion, to our current life together. This will not be a traditional travelogue. Instead, we will explore seven themes about the nature of America, using Highway 50 as an anchor, prompt, and story board.

David Marsh was a high school history teacher before serving as a professor of education and associate dean in the School of Education at the University of Southern California. He has spent the last decade exploring America along Highway 50. In the style of Charles Kuralt, he has driven every mile of the highway, talked with many “locals” along the route, visited key museums and sites, and read local newspapers.

HISTORY OF DENVER'S ELITCH THEATRE

Ted Borillo

3 wks WED 9/13-9/27 9:30-11 am

\$35 Lecture, Q&A

Cecil B. DeMille once said that Denver's Elitch Theatre was known among actors as "one of the greatest cradles of drama in American history." Today the name "Elitch" is probably most often associated with the LoDo amusement park, but thousands recognize its deeper roots in Denver's cultural history. After building a lovely garden at Tennyson and West 38th, John and Mary Elitch opened a theatre in 1890. Until its closing in 1987, the playhouse hosted many of the nation's premier performers and witnessed huge transformations in American life. Join us as we share amusing anecdotes of the actors who walked Elitch's boards and look back on the theater's role in shaping Denver's cultural landscape.

Retired lawyer **Ted Borrillo** is a published poet who enjoys delving into history and law issues. Ted recently published a book with the same title as this course.

OUR PRESIDENTS:

FROM WASHINGTON TO TRUMP -NEW

Dick Young

6 wks TUES 9/12-10/24, SKIP 9/26, 9:30-11 am

\$65 Lecture, discussion

Woven in to discussing each of our 45 Presidents, we will discover how the making of our country was truly a miracle. From the electoral college over the years (has it worked?) to the wars we have fought, we will look at each president and how he got elected. We'll look at the role political parties have and continue to play in our electoral process, including how different we are from the vision of Thomas Jefferson, who once was quoted as saying, "If I must go to heaven with a (political) party, I would prefer to not go." And we will learn how important the President is in our ordinary lives.

Retired Admiral, lawyer, and political leader, **Dick Young** has taught courses on Pearl Harbor, the Pacific War, and American history at various Elderhostels. He is now legislative chairman of the United Veterans Committee of Colorado.

LEGACY AND HISTORY OF THE CRUSADES

Walt Meyer

7 wks TUES 9/19-10/31, 11:30 am-1 pm

\$75 Lecture, Q&A

The course begins with a brief discussion of the European and Middle East context in the late 11th century, followed by a presentation of the first Crusade, including the capture of Jerusalem and the reaction of the Muslims. Subsequent weeks will cover the period of the Kingdom of Jerusalem, the establishment of the military orders, the unification of the Muslims under Saladin, and subsequent Crusades, including the aborted Crusade of Richard and Phillip, Kings of England and France, respectively. Finally, we spend some time examining the fate of the military orders and reflecting on the legacy of the Crusades because the effects of the Crusades linger in the world today and affect the thinking of both Islam and the West.

Walt Meyer is a retired "technocrat." His interest in Middle Eastern religion stems from leading different courses on Islam, the Crusades and Inquisitions over the past 12 years.

Shellie Hochstadt taught AP world history, government and economics until retiring from high school teaching in 2010. She combines her interests in history, travel and reading into her teaching, where her goal is to bring a global perspective.

HAMILTON: THE MAN & MUSICAL

Susan Blake-Smith and the Hamil-tones
7 wks WED 9/20-11/15, 1:30 -3 pm, SKIP 10/11, 11/1
\$75 Lecture, Q&A

Hamilton, the record-breaking Broadway sensation, has sparked new interest in one of America's most fascinating founding fathers. Using the musical as our backdrop, we will explore Alexander Hamilton's remarkable story from a hardscrabble childhood in St. Croix to his meteoric rise to Secretary of the Treasury, his role in the country's first publicized sex scandal and his fateful duel with Aaron Burr. We will discuss the lyrics, the music and why the show has "revolutionized" Broadway. Is the show historically accurate? Did Hamilton throw away his shot? Why is Lin-Manuel Miranda, the playwright, considered a literary and musical genius? This class will be fast-paced and fun. Whether you are already familiar with the music or not, you're going to "want to be in the room where it happens."

Susan Blake-Smith, veteran Academy facilitator, with **Jack Keenan**, chair of the Academy's history department, **Jim Kneser**, music and economics buff, **Paulette Wasserstein**, literature rock star, Sally Kneser, director of visuals and technology and **Mitch Samu**, professional music director, composer, musician and pianist extraordinaire.

\$55 Lecture, demonstration, discussion

This course will enable participants to understand why stories can be effectively told with today's interactive, web-based (<http://storymaps.arcgis.com>) maps, and learn how to create story maps that incorporate sounds, video, photographs, narrative, and other multimedia. Through readings, videos, quizzes, discussions, and hands-on activities, learn how and why to create story maps and be confident that you can use these tools to investigate our world and tell your OWN stories.

Joseph Kerski is a geographer and cartographer at the US Census Bureau and at the USGS for 21 years. He teaches at educator professional development institutes and in MOOCs (Massive Open Online Courses) through Elmhurst College, Penn State and other places on the map.

PHOTOGRAPHY FOR THE PROFESSIONAL VACATIONER

Joe Klocek

4 wks TUES 9/12-10/10, 11:30 am.-1 pm Skip 9/26

\$55 Lecture, demo, Q&A

Are you tired of fuzzy photos? Sick of sophomoric selfies? In this class, we're going to explore photographic skills from the basics through intermediate understanding. By the end, you'll understand all the techniques necessary to shoot effectively, at any time, in any environment, and with any subject. There will also be a small section on quality editing and printing.

Joe Klocek has been a professional in the photographic industry for 11 years and a guest speaker at photo clubs, the Amazing Aging Exposition, and the Colorado Travel and Leisure Exposition.

YOUR FAMILY 101:

BEGINNING GENEALOGICAL RESEARCH

Leah Klocek

5 wks TUES 9/12-10/10, 11:30 am.-1 pm

\$60 Lecture, demo, Q&A

This class is a thorough and accessible introduction to delving into one's own family history/genealogy. Topics range from the basic, such as how to create a family tree, to the intermediate, such as an introduction to the documents and records commonly used in genealogy, where and how to find them, and how to interpret them, to the more advanced, including common pitfalls and mistakes encountered by hobbyists and how to

avoid them. An examination of DNA testing has also been added to the class. The class culminates with informal student presentations of their own findings

Leah Klocek is a historical and genealogical researcher here in Denver. She is a founder and owner of a small business, Crossroads Historical Research.

ECONOMICS

ECONOMICS 2017: FOR WHAT IT'S WORTH -NEW

Jim Kneser

6 wks THURS 10/5-11/9, 9:30-11 am

\$110 Lecture

The surprising result(s) of the 2016 election dramatically changed all expectations for the economy. The Trump administration had campaigned on the promise of making changes to economic policy hoping to achieve growth, lower taxes, controlled immigration, better regulatory policy, higher wages, reduced poverty, improved health care policy, smaller trade deficits, a shrinking federal deficit, and a declining national debt. Financial markets have benefited from the optimistic expectation that some or all of these promises will come to pass, but the necessary legislation has been slow. In any event, we will look at the present status of the U.S. economy and consider what types of economic policy changes should be considered. A majority of academic and private sector economists are in close agreement as to how these objectives can best be achieved (e.g. the IGM Forum, former Chairs of the Council of Economic Advisors, etc.) but the public and politicians are focused on alternatives far less likely to be successful. No Q&A during class to keep things running on time.

After a career in financial management, **Jim Kneser** has turned to teaching micro and macroeconomics, globalization and public policy to over 5,000 participants in over 60 courses. Jim is a founding Academy Board member.
